# Index to "Bulletin," Volume 45 (1960)

THIS INDEX INCLUDES ONLY the six numbers of Volume 45, 1960, of the American College of Surgeons' BULLETIN. By author and subject, it is the fifth annual index to be published, the other four having been for Volumes 40 (1955), 41 (1956), 43 (1958), 44 (1959).

As, in general, the aim of the BULLETIN is to disseminate news and information about the College to its Fellows, the subject "American College of Surgeons" in this index takes in only items concerned with College history and administration. Other College activities are listed by name, followed by the letters "A.C.S.," i.e., "Committees, A.C.S.," "Fellows, A.C.S."

## Index to "Bulletin," Volume 46, 1961

THIS INDEX INCLUDES ONLY the six issues of Volume 46, 1961, of the American College of Surgeons' BULLETIN. By author and subject, it is the sixth annual index to be published, the other five having been Volume 40 (1955), Volume 41 (1956), Volume 43 (1958), Volume 44 (1959), and Volume 45 (1960).

In 1957 was published a cumulative index, which included Volumes 31 through 42, or the years 1946 through 1957. This is still available upon request, and a few copies of an earlier index entitled "Index to the Publications of the American College of Surgeons Since Its Founding, 1913-1945" are available.

As, in general, the aim of the BULLETIN is dissemination of news and information about the College to its Fellows, the subject "American College of Surgeons" in this index takes in only items concerned with College history and administration. Other College activities are listed by name, followed by the letters "A.C.S.," i.e., "Committees, A.C.S.," "Fellows, A.C.S."

## Index to "Bulletin," Volume 47 (1962)

THIS INDEX includes only the six numbers of Volume 47, 1962, of the BULLETIN. By author and subject, it is the seventh annual index to be published, the others being, for Volumes 40 (1955), 41 (1956), 43 (1958), 44 (1959), 45 (1960), and 46 (1961). In 1957 was published a cumulative index, which included Volumes 31 through 42 (1946-57). It is still available upon request; and a few copies of an earlier index entitled "Index to the Publications of the American College of Surgeons Since Its Founding, 1913-1945" are also available.

As, ideally, the aim of the BULLETIN is to disseminate news and information about the College to its Fellows, the subject "American College of Surgeons" in this index takes in only items concerned with history and administration. Other A.C.S. activities are listed by name, followed by the letters "A.C.S.," i.e., "Committees, A.C.S.," "Fellows, A.C.S."

## Ravdin Institute Is Dedicated

THE I. S. RAVDIN INSTITUTE of the Hospital of the University of Pennsylvania was dedicated on June 15. Named for the university's vice president for medical affairs, the building is one of the most advanced and comprehensive structures ever built for medical research, patient care and teaching. Dr. Ravdin was 1960-61 president of the American College of Surgeons and former chairman of its Board of Regents. Located at Thirty-fourth and Spruce Streets in Philadelphia, the Institute cost \$7,700,000.

## Index to "Bulletin," Volume 48 (1963)

THIS INDEX INCLUDES only the six numbers of Volume 48, 1963, of the BULLETIN. By author and subject, it is the eighth annual index to be published, the others being for Volumes 40 (1955) 41, (1956), 43 (1958), 44 (1959), 45 (1960), 46 (1961) and 47 (1962). In 1957 a cumulative index including Volumes 31 through 42 (1946-1957) was published separately; and is still available upon request.

As the BULLETIN attempts to disseminate news and information about the College to its Fellows, the subject "American College of Surgeons" in this index includes only items concerned with history and administration. Other activities are listed separately by name, followed by the letters "A.C.S.," i.e. "Meetings, A.C.S.," "Fellows, A.C.S.," "Committees, A.C.S."

## Index to "Bulletin" Volume 49 (1964)

THIS INDEX INCLUDES ONLY THE SIX NUMBERS OF VOLUME 49, 1964, OF THE BULLETIN. By author and subject, it is the ninth annual index to be published, the others being for Volumes 40 (1955), 41 (1956), 43 (1958), 44 (1959), 45 (1960), 46 (1961), 47 (1962), and 48 (1963). In 1957 a cumulative index including Volumes 31 through 42 (1946-1957) was published separately; and is still available upon request.

As the BULLETIN attempts to disseminate news and information about the College to its Fellows, the subject "American College of Surgeons" in this index includes only items concerned with history and administration. Other activities are listed separately by name, followed by the letters "A.C.S.," i.e. "Meetings, A.C.S.," "Fellows, A.C.S.," "Committees, A.C.S."

This Friday and Saturday meeting will be held in the Americana of New York Hotel, 52 Street and Second Avenue. Registrants reserve their own hotel accommodations.

Residents who present a letter signed by their

chief of service or hospital director will be registered free of charge.

On January 8 registration will begin at 7:30. The first session will begin promptly at 9:00 when James W. Smith, of New York, discusses the blood supply of tendons with injury, and repair.

Professor J. M. F. Landsmeer, of Leiden, will make the Founders' Lecture when he speaks Friday morning on the anatomical exploration and functional analysis of the human hand.

President of the Hand Society is Robert M. McCormack, Rochester, New York.

## Index to "Bulletin" Volume 50 (1965)

THIS INDEX INCLUDES ONLY THE SIX NUMBERS OF VOLUME 50, 1965, OF THE BULLETIN. By author and subject, it is the tenth annual index to be published, the others being for Volumes 40 (1955), 41 (1956), 43 (1958), 44 (1959), 45 (1960), 46 (1961), 47 (1962), 48 (1963), and 49 (1964). In 1957 a cumulative index including Volumes 31 through 42 (1946-57) was published separately; and in the June, 1946 BULLETIN was published "Index to the Publications of the American College of Surgeons Since Its Founding, 1913-1945."

As the BULLETIN attempts to disseminate news and information about the College to its Fellows, the subject "American College of Surgeons" in this index includes only items concerned with this organization's history and administration. Other activities are listed separately by name, followed by the letters "A.C.S.," i.e., Chapters, A.C.S., Clinical Congress, A.C.S., Committees, A.C.S., Publications, A.C.S., Sectional Meetings, A.C.S., Staff, A.C.S.

# Index to "Bulletin," Volume 51 (1966)

THIS INDEX INCLUDES ONLY THE SIX NUMBERS OF VOLUME 51, 1966, OF THE BULLETIN of the American College of Surgeons. By author and subject, it is the eleventh annual index to be published, the others being for Volumes 40 (1955), 41 (1956), and 43 through 50 (1958 through 1965). In 1957, a cumulative index including Volumes 31 through 42 (1946-57) was published separately. In the June, 1946 BULLETIN was published an "Index to the Publications of the American College of Surgeons Since Its Founding, 1913-1945."

As the BULLETIN endeavors to disseminate news and information chiefly about the College to the Fellows, the subject "American College of Surgeons" in this index includes only items concerned with the organization's history and administration. Other activities are listed separately by name, followed by the letters "A.C.S.," or Chapters, A.C.S., Clinical Congress, A.C.S., Committees, A.C.S., Publications, A.C.S., Sectional Meetings, A.C.S., Staff, A.C.S.

## Bulletin Conveys College News to Fellows in 83 Countries

THIS NOVEMBER-DECEMBER 1966 BULLETIN will take information about the College to 28,140 Fellows and 4,772 Candidates in 83 countries.

Through this bimonthly, the College also communicates with 4,893 accredited hospitals in the United States and Canada.

The *Bulletin* is also sent to 901 others including, to name a few, local and foreign journals in exchange, medical school libraries and deans, science writers and editors, and doctors working on A.C.S. scholarships.

For the sixth number of Volume 51, distribution adds up to 38,706.

This official bimonthly is not available by subscription. Letters in this connection should be addressed to the editor.

The first BULLETIN was published in 1916.

## Index to BULLETIN, Volume 52 (1967)

THIS INDEX INCLUDES ONLY THE SIX NUMBERS OF VOLUME 52, 1967, OF THE BULLETIN OF THE AMERICAN COLLEGE OF SURGEONS. By author and subject, it is the twelfth annual index to be published, the others being for Volumes 40 (1955), 41 (1956), and 43 through 51 (1958 through 1966). In 1957, a cumulative index including Volumes 31 through 42 (1946-57) was published separately. In the June, 1946 BULLETIN was published an "Index to the Publications of the American College of Surgeons Since Its Founding, 1913-1945."

As the BULLETIN endeavors to disseminate news and information chiefly about the College to the Fellows, the subject "American College of Surgeons" in this index includes only items concerned with the organization's history and administration. Other activities are listed separately by name, followed by the letters "A.C.S.," that is, Chapters, A.C.S., and Clinical Congress, A.C.S.

been ordered to report to me tri-daily for examination (as I expected he would be) I should have received him kindly, and reported in writing, as directed.—My object has ever been to obey orders of my Superior Officers, only considering the interests of the public service, and never regarding self, well aware that personal feelings and private dignity ought to yield to public authority.”

#### Acquittal

Several weeks later, the young surgeon was notified of his victory, as recorded on April 4:

“Commenced snowing about 11 o'clock, but it soon changed to rain. Dr. Logan visited and dined with me to-day. I received the following from the Adj't about noon: 'Hd. Qrs. 4th N. C. Troops, April 4, 1864, SPECIAL ORDER NO. . . . ., Surgeon J. F. Shaffner, having been acquitted of the charges preferred against him, is released from arrest, and will report for duty. By order of Col. Grimes, Wm. S. Barnes, Adj't.'”

“The following is the official notification of my acquittal, received at Reg'tl Hd. Qrs. 'Hd. Qrs. Dept. N. Va., April 2, 1864, Acquittals by Mil. Ct. 2nd Corps, 5. Dr. J. F. Schaffner, Surgeon 4th N. C. Troops.'”

But no matter how involved Dr. Shaffner became with personal problems, he refused to become inured to man's suffering.

A poignant entry in the doctor's diary not only demonstrated his philosophy, but offered a creed that healers of the sick can use today as a reminder of their calling.

“The horrors of the battlefield are bad, but oh not one particle so affecting as those of the hospital with wounded. The suffering of the poor wounded soldier, his prayers, his constant calls for absent ones at home, &c., are almost heart-rending. 'Tis true we are apt to become hardened by association with these things—still humanity convinces us all that such sufferings are terrible. Surgeons are in evergrowing danger of becoming too abstract—of losing sympathy with passing emotions and sufferings, and particularly with those shared by numbers. The danger is, lest we forget that we too are mortal; subject to same dangers, and fancy ourselves superior to our former selves, because now, at present we do not feel the pains, the agonies of the poor sufferers in our charge. But I shall never forget these scenes of anguish and pain—they make lasting impressions upon my mind.”

## Index to Bulletin, Volume 53 (1968)

THIS INDEX INCLUDES ONLY THE SIX NUMBERS OF VOLUME 53, 1968, OF THE BULLETIN OF THE AMERICAN COLLEGE OF SURGEONS. By author and subject, it is the thirteenth annual index to be published, the others being for Volumes 40 (1955), 41 (1956), and 43 through 52 (1958 through 1967). In 1957, a cumulative index including Volumes 31 through 42 (1946-57) was published separately.

In the June, 1946 BULLETIN was published an "Index to the Publications of the American College of Surgeons Since Its Founding, 1913-1945."

As the BULLETIN endeavors to disseminate news and information chiefly about the College to the Fellows, the subject "American College of Surgeons" in this index includes only items concerned with the organization's history and administration. Other activities are listed separately by name, followed by the letters "A.C.S.," that is, Chapters, A.C.S., and Clinical Congress, A.C.S.

Some numbers of the BULLETIN published during the last ten years are still in supply.

Distribution of this official bimonthly is described on page 335.

THIS INDEX INCLUDES ONLY THE SIX NUMBERS of Volume 54, 1969, of the BULLETIN OF THE AMERICAN COLLEGE OF SURGEONS. By author and subject, it is the fourteenth annual index to be published, the others being for Volumes 40 (1955), 41 (1956), and 43 through 53 (1958 through 1968). In 1957 a cumulative index including Volumes 31 through 42 (1946-57) was published separately.

In the June, 1946 BULLETIN was published an "Index to the Publications of the American College of Surgeons Since Its Founding, 1913-1945."

As the BULLETIN endeavors to disseminate news and information chiefly about the College to the Fellows, the subject "American College of Surgeons" in this index includes only items concerned with the organization's history and administration. Other activities are listed separately by name, followed by the letters "A.C.S.," that is, Chapters, A.C.S., and Clinical Congress, A.C.S.

Some numbers of the BULLETIN published during the last ten years are still in supply.
